ARLX009 Tropical Storm Hilary: Amateur Radio Activates

Courtesy of ARRL

Amateur Radio operators activated on Sunday, August 20, 2023 to provide communications and information for Tropical Storm Hilary. As of mid-morning Sunday, the system was moving up the Baja Peninsula of Mexico, expected to cross into Southern California. Heavy rains were falling in San Diego, and local media reported that 250 airline flights had been canceled.

Amateur radio operations began Sunday morning. The WX4NHC amateur radio station <https://w4ehw.fiu.edu/> - at the National Hurricane Center was on air. "WX4NHC will be on the air on the Hurricane Watch Net frequencies of 14.325 MHz and 7.268 MHz depending on propagation. We will also be on VoIP Hurricane Net (IRLP node 9219 / EchoLink WX-TALK Conference node 7203, <http://www.voipwx.net/>).

"We will also be monitoring WinLink reports via wx4nhc@winlink.org (subject line must contain //WL2K)," wrote WX4NHC Amateur Radio Assistant Coordinator Julio Ripoll, WD4R.

The Hurricane Watch Net (HWN) was also activated Sunday morning. "We will remain active until our services are no longer required. This system does have a good chance of crossing into California as a Tropical Storm. If so, it will be the first Tropical Storm to hit California since 1939," wrote net manager Bobby Graves, KB5HAV.

HWN seeks reports to relay to the National Hurricane Center in Miami. They have operators who are fluent in English and Spanish to take reports. "Such weather information we look for is maximum sustained winds, winds gusts, wind direction, barometric pressure, rainfall amount - how much over x-amount of time, storm surge, and damage. Should you have any outgoing Health and Welfare Traffic before, during, or after this event, we are happy to assist as we work closely with the Salvation Army Team Emergency Radio Network (SATERN)," wrote Graves.

HWN also exists to provide backup communications to official agencies such as emergency operations centers, Red Cross officials, and storm shelters in the affected area and relays damage reports.

The primary frequencies the net uses center on 14.325 MHz and 7.268 MHz, depending on propagation. HWN thanks radio amateurs for yielding those frequencies during operation. "It certainly makes our job easier, and I know those in the affected area appreciate it as well," said Graves.

BIG PILEUPS EXPECTED ON RT 66 IN SEPTEMBER!!!

The annual Rt 66 on the Air event starts September 9th and runs through the 17th, and the Northern AZ DX Association is looking for guest operators to join us as W6T- ROVER #2 at Bellemont and Parks, Arizona.

W6T will have 3 stations on the air with multiple modes and plan to operate 24/7, if we have enough operators.

There usually is room to park RV's close by, if you plan to join us, but you must contact us in advance to schedule an operating time.

This is the 24th year of the event and one you won't want to miss! Last year, the event created over 80,000 QSOs! AMAZING!!!

EAARS Streaming Audio Back Online

In the latter part of August, the EAARS Streaming Audio computer decided it had done its last boot and went Blue Screen on me. When the stream goes down, both N7EMB and myself, N7JND receive an email from the streaming company stating we are not broadcasting. Usually when this happens, it's just Windows had done an update over night and the computer needs attention. This time, no luck. The computer failed to boot passed the BIOS.

With a quick text over to Larry – N5BG, the board approved a quick purchase of a replacement computer. I ordered it and received the computer on Saturday Aug 26th. On August 27th, I had the replacement computer out of the box and got the streaming audio software installed and configured. In about an hour, we both received another email with a green light saying the stream was back online. YAY!! A big Thank You to the EAARS board for such a quick response.

The EAARS streaming audio is provided to anyone that is interested in monitoring the EAARS system when out of range. Since it's just received audio only, anyone can monitor our repeaters from just about anywhere in the world that has internet service.

The two quickest ways to listen in, is either go to broadcastify.com and click on Listen and then click on Browse Feeds at the top and navigate to Arizona and look for EAARS. Or click on the Listen Live section on the EAARS website at eaars.com and a player should populate. Remember, if no one is talking, the stream will be quiet until someone keys up.

73,
Chris N7JND

Radio Society of Tucson
presents
Harvest Hamfest
Saturday, October 7, 2023
7 AM - 11 AM
Calvary Church
8711 E Speedway Blvd, Tucson
Free Admission & Parking

Buyers - Free Admission & Parking
Sellers - Shaded Parking
Seller/vendor spaces -
\$10/parking space
Seller Setup Starting at 6 AM
Morning Snacks - Scout Troop 157

RAFFLE

Tickets: \$2 each, 3 for \$5,
7 for \$10, 15 for \$20,
40 for \$40,
and 100 for \$100.

Need not be present to win.

Up Coming Ham Radio Event Tucson Alzheimer Walk

I have a few events coming up in October. One event that I am needing help with is the **Tucson Alzheimer Walk @ Reid Park, Saturday, October 28. For decision making, operators will need to be in position, no later than 7:30 am.**

If you are available to give me a few hours of your time that morning, please reach out! I am definitely in need of a few operators! I would like to have my communication team, set and ready to go, as soon as possible!

It is easy, fun and very rewarding! I dedicate this event to my mama, whom we lost Nov 2019 to dementia. It is an ugly disease that does not discriminate.

Thank you! Thank you
for what you do for Ham
Radio! If interested and
available, I look forward
to hearing from you and
working with you!

Angie N7EMB
emberfire@cox.net

Other Club Stuff

From Diane AA3OF: RST VE Testing will be held at Immanuel Presbyterian Church, Witherspoon Hall, 9252 E 22nd St, at 7pm.

Cooking up
Some Magic

Zucchini Bars

These zucchini bars are so delicious that my family can eat the entire batch in one day! These snack cakes are very easy and moist.

Ingredients

2 cups white sugar
1 cup vegetable oil
3 large eggs
2 teaspoons vanilla extract
2 ½ cups all-purpose flour
2 teaspoons baking soda
1 teaspoon salt
¼ teaspoon baking powder
2 cups grated zucchini
2 ½ cups confectioners' sugar, sifted
½ cup margarine
1 (3 ounce) package cream cheese, room temp

Prep Time: 20 mins

Cook Time: 20 mins

Total Time: 40 mins

Courtesy of Allrecipes.

Directions

1. Preheat the oven to 350 degrees F (175 degrees C). Grease a 9x13-inch baking dish.
2. Mix together sugar, oil, eggs, and vanilla in a large bowl until well blended. Combine flour, baking soda, salt, and baking powder in a separate bowl; stir into sugar mixture until well combined. Mix in zucchini. Spread batter evenly into the prepared baking dish.
3. Bake in the preheated oven until a toothpick inserted into the center comes out clean, 20 to 25 minutes.
4. Blend together confectioners' sugar, margarine, and cream cheese in a medium bowl with an electric mixer until smooth. Spread over warm cake. Allow cake to cool completely before cutting into bars.
